CAREER OBJECTIVE

Aspiring Software Developer seeking an Associate Software Engineer opportunity to apply my knowledge of Java, Python, C++, SQL, and REST APIs in developing reliable software solutions. With a strong foundation in object-oriented programming, Spring Boot, backend development, and problem-solving, I aim to contribute to software development, testing, and continuous improvement while expanding my technical skills in an Agile environment.

TECHNICAL SKILLS

Languages: Java, Python, C++
Web Technologies: HTML, CSS, JavaScript
Frameworks: Spring Boot, Hibernate
APIs & Databases: REST APIs, MySQL, H2, SQL
Testing: JUnit 5, Unit Testing
Core Concepts: OOP, Data Structures, Problem Solving, Software Development Lifecycle
Development Tools: Git
Soft Skills: Communication, Team Collaboration

EXPERIENCE

JP Morgan Chase & Co. — Software Engineering Job Simulation | Forage *Oct 2025 | Virtual*

- Completed practical backend development tasks using **Spring Boot and REST APIs**, simulating real-world Java application development workflows
- Worked with **Hibernate ORM** and H2 in-memory database for data persistence and object-relational mapping in a simulated enterprise environment
- Gained an understanding of the **software development lifecycle**, including requirement analysis, coding, testing, and deployment practices, with foundational knowledge of Agile software development methodologies.

PROJECTS

UPI Offline Mesh — Peer-to-Peer Payment Settlement System

Java, Spring Boot 3.3, Spring Data JPA, H2, JUnit 5, HTML/CSS/JS [GitHub]

Built a Spring Boot payment settlement system simulating offline UPI transfers over a gossip mesh network; implemented hybrid RSA+AES-GCM encryption, idempotent duplicate rejection via atomic concurrent maps, and optimistic-locked balance transfers, validated with multithreaded JUnit tests.

Tech Companies Management System

Java, Spring Boot, Spring Security, JWT, MySQL, JPA/Hibernate [GitHub]

Built a secure Spring Boot backend for company-wide project and work management, covering employees, projects, issues, boards, sprints, and comments. Implemented JWT-based authentication, RBAC, permission-based authorization, project-level access control, BCrypt security, and MySQL persistence.

EDUCATION

Bachelor of Technology — Computer Science Engineering (CSE) *2022 – 2026*
Malla Reddy University, Hyderabad, Telangana • **CGPA: 8.39**

Board of Intermediate Education (MPC) *2020 – 2022*
Sri Chaitanya Junior College, KPHB, Hyderabad • **Aggregate: 93.8%**

Board of Secondary Education *2019 – 2020*
Abhijna High School, Pragathi Nagar, Hyderabad • **CGPA: 10.0**
